PROFILE SUMMARY

Solution oriented **UiPath RPA developer** with **2.5 years** of experience in developing, testing, and deploying RPA solutions using **UiPath**. Proficient in developing workflows, creating automation scripts, and managing data for various business processes. Proven ability to streamline business processes, reduce operational costs, and enhance efficiency. Solid comprehension of UiPath and associated tools including **UiPath Studio**, **UiPath orchestrator**, **UiPath assistant** & **UiPath task capture**.

WORK EXPERIENCE

Software Engineer (RPA Developer) | Coforge Limited (Oct'21-Present)

- Designed and implemented end-to-end automation solutions using **UiPath Studio**, resulting in overall improvement in process efficiency and cost saving.
- Effectively **enhanced** existing automation to meet business goals and to increase overall efficiency.
- Collaborated with **cross-functional** teams to identify and analyse automation opportunities.
- Conducted various testing such as unit testing, integration testing, system testing and **UATs**.
- Effectively implemented **CI/CD pipelines** utilizing Azure DevOps services.
- Engaged in the preparation of technical documentation, including **PDD**, **SDD**, and **PRD**.
- Delivered support & maintenance to existing automation ensuring less errors and timely issue resolution.

PROJECTS

- **SPTC TAX Recon:** Focuses on improving the efficiency of data reconciliation from diverse bank portals. Robot interacts with the portals, downloads report, ensures accurate data reconciliation and organizes files to a centralized network location. Leading to 70% less errors & cost saving of two FTEs.
- **Compliance Reporting:** Improve Report retrieval and compilation from diverse Fund Houses on the SSRS portal. The process navigates the portal to extract reports, organizes them into a folder, and securely transfers the compiled reports to a network location, reducing human errors and enhanced efficiency.
- **Cofunds:** Focuses on enhancing banking communication and payment processes through email-triggered automation. It extracts key data from Excel attachments, generates messages on the first bank portal, and initiates payments on the second bank portal. The outcomes include an 80% reduction in errors.

TECHNICAL COMPETENCIES

- **Databases** : SQL Server 2016/2019
- **Tools** : UiPath Studio, UiPath Orchestrator, SSMS, TFS, HEAT, ServiceNow, IDERA, Azure DevOps
- **Languages** : C#, HTML, CSS, .Net Framework, MS SQL, VB.Net

KEY SKILLS

• RE Framework	• Ui & Web Automation	• Email Automation
• PDF & Excel Automation	• Error & Exception Handling	• Assets & Queues
• File & Folder Automation	• Triggering & monitoring	• Rest APIs
• Custom Activities	• Database Integration	• Debugging

HIGHEST QUALIFICATION

- Bachelor of Technology (ECE) from JSS Academy of Technical Education, Noida (2017- 2021)
